

Smart multi Account Manager

Smart multi Account Manager developed for simultaneous management of multiple Metatrader 4 accounts on different MT4 brokers, which is mostly helpful for those who manage investors' accounts (asset management or managed account services) and for traders working with many accounts on different MT4 brokers simultaneously. Allow working with any amount of accounts and any Metatrader 4 Brokers, receiving quotes for any symbols, placing all types of orders. You can adjust different lots for each slave terminal (manually or automatically).

Features:

- No extra software running. Only 2 EAs needed to be run.
- Very easy 2 STEPS to get it works.
- Simultaneous management of multiple Metatrader 4.
- Different MT4 brokers.
- Ability to copy signals of expert advisors.
- Using own Money Management.

Usage:

1. Single MASTER account for many CLONES' accounts.
2. Many MASTERS' accounts for single CLONE account.
3. Many MASTERS' accounts for many CLONES' accounts

Installation guide

General:

- Must run MT4 platform **for each account** you manage. For example, you want to copy trades from one MASTER account to 2 CLONES you must run 3 MT4 platforms in the same machine (PC or VPS).
- Each MT4 platform in a **separate folder**.
- Installation package used one time only for **MASTER account only**.

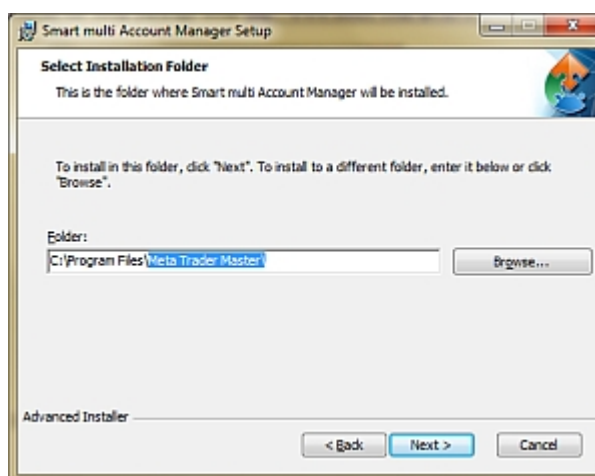

Step by step:

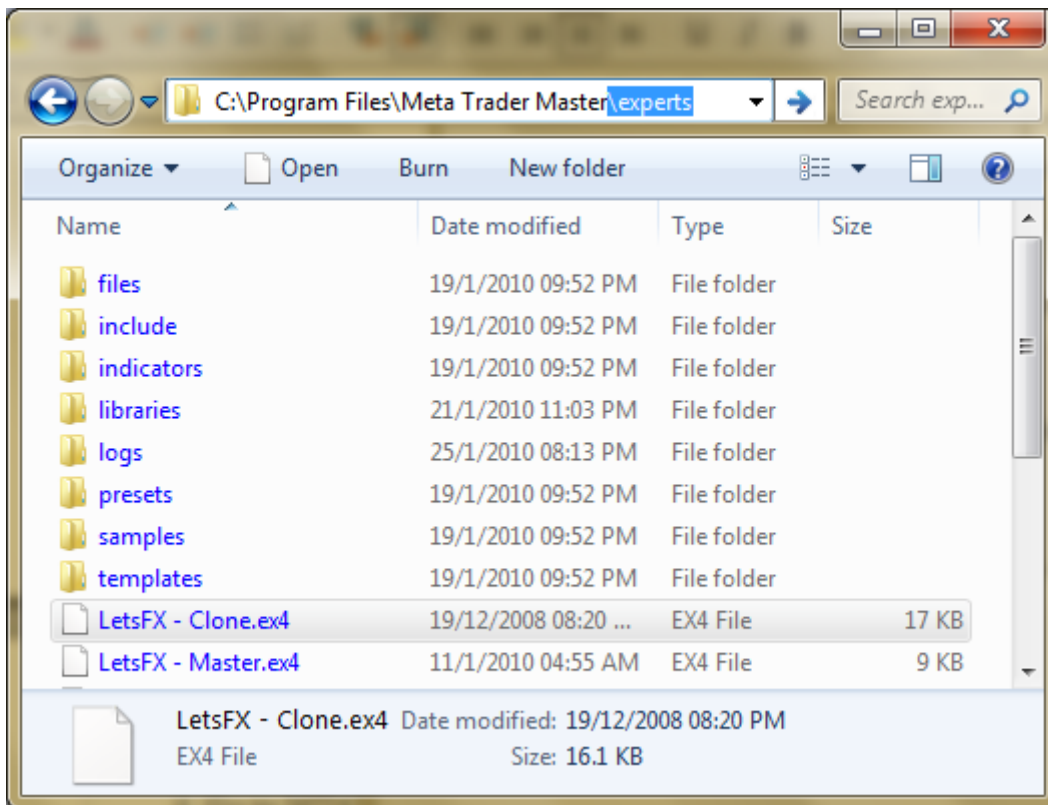

1. Download the setup package from <http://www.letsfx.com/archive/7>.

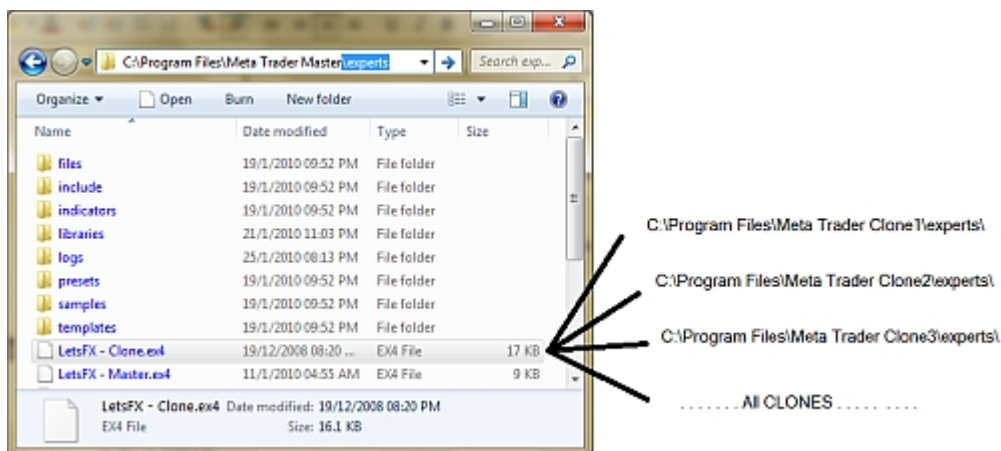

2. Run downloaded LetsFX-Manager.msi. Click Next.

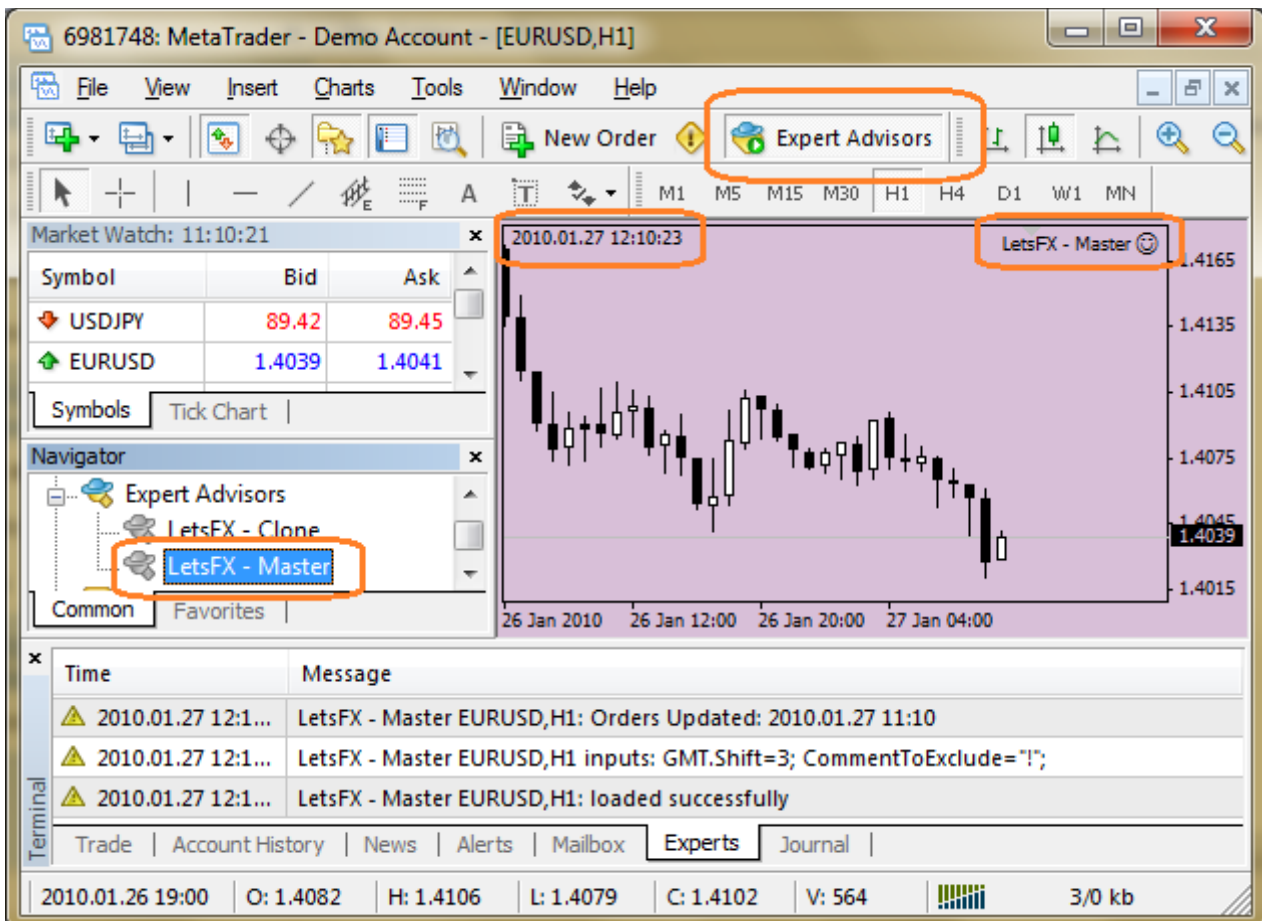

3. **IMPORTANT:** choose MASTER account MT4 folder as destination.

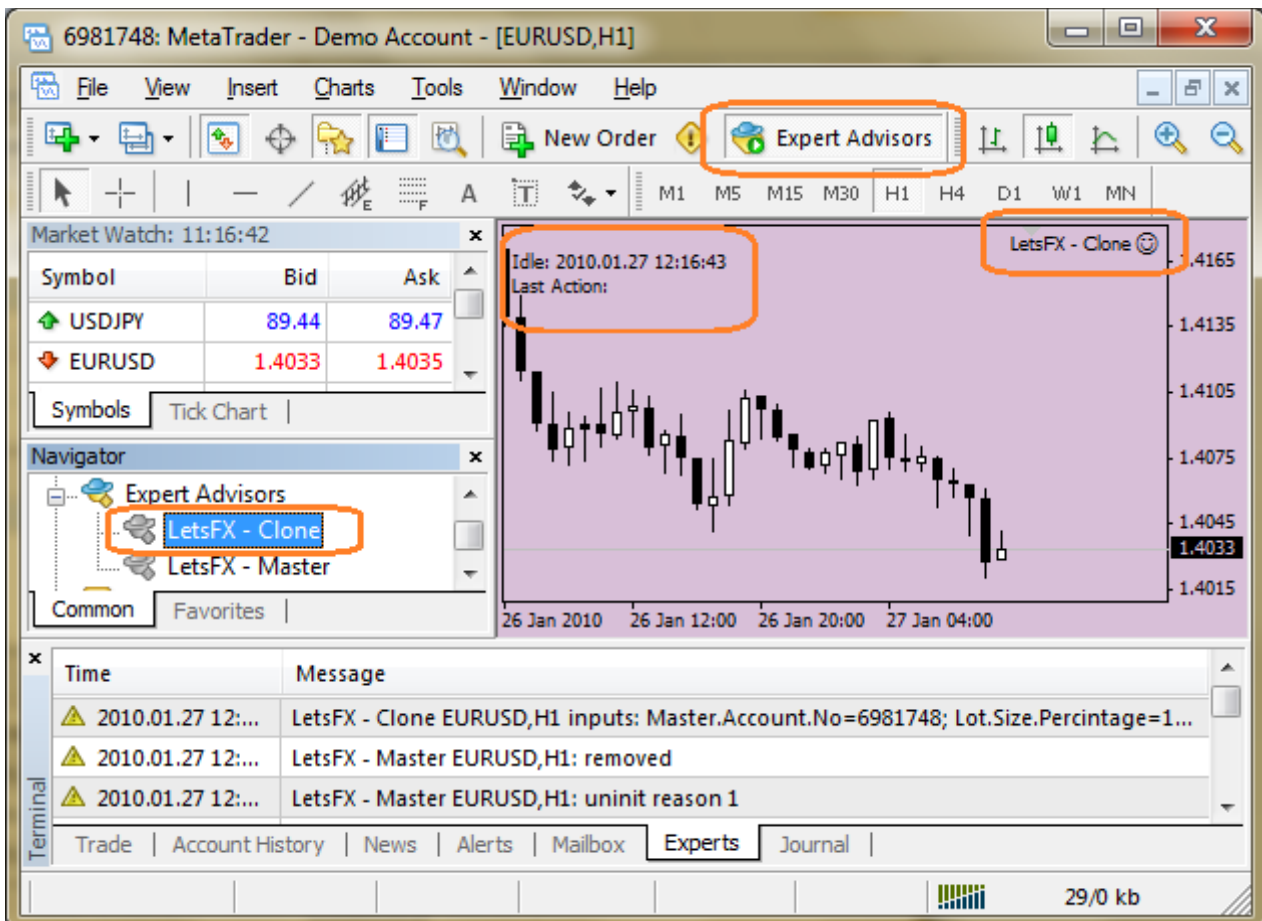

4. Go to MT4 MASTER account folder to “..\experts” and locate “LetsFX-Clone.ex4”.

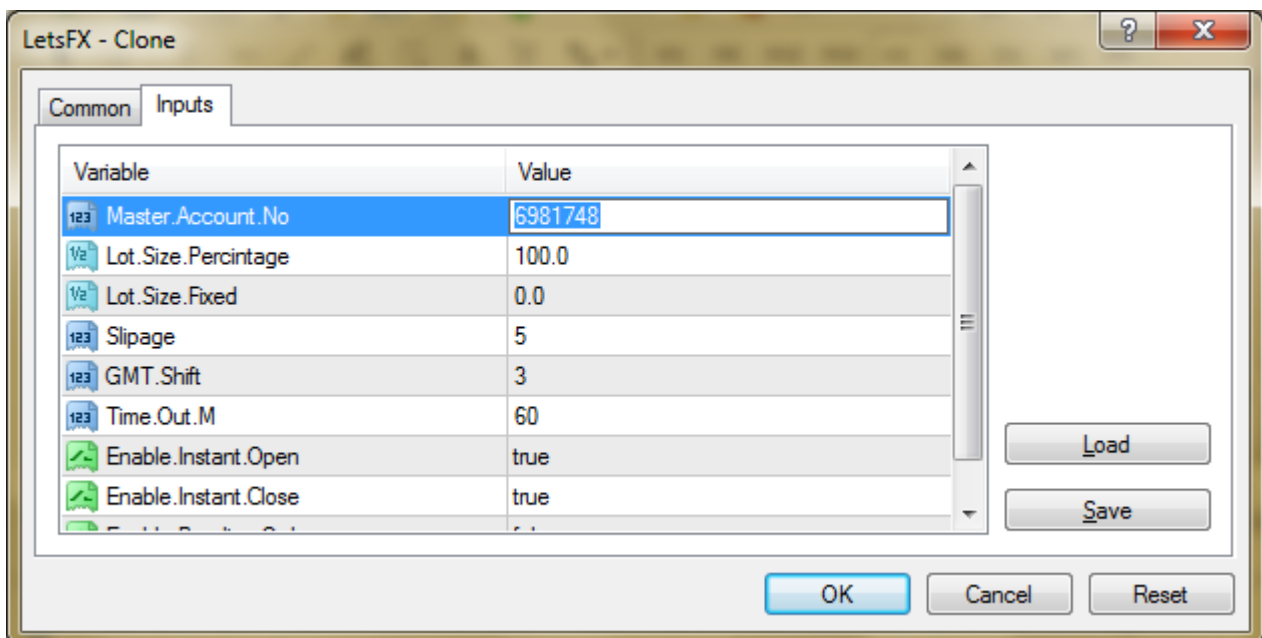

5. Copy “LetsFX-Clone.ex4” to each CLONE MT4 folder “..\experts\”.

6. Run MASTER account MT4, and attache “LetsFX-Master” EA to one chart only. NOTE: **the local time** top-left chart should be running to make sure of EA working.

7. Run All CLONES accounts MT4 platforms, and attache “LetsFX-Clone” EA to one chart for each CLONE MT4 platform.

8. Go to “LetsFX-Clone” EA Inputs and set “Master.Account.No” the number of your MASTER account. Repeat this for all CLONES

9. System now running, any trades in MASTER account will be send to all CLONES.
